

Our Omnibus Budget.

Trifling annoyances are valuable in disciplining us to bear greater ones.

Persons often lack courage to appear as good as they really are.

Never communicate your affairs to one who seems anxious to learn them.

Some persons blame the devil, not by speaking truth, but by outlying him.

The young woman who marries an unworthy man, takes her lord's name in vain.

The human race, like an auctioneer's goods, are always going—going—gone.

The most obvious way to make a discordant political party a unit is to kill all its members but one.

Skeptics have cut but a small figure in the world. The great doers in history have been men of faith.

There is an ugly kind of forgiveness in this world—a kind of hedge-hog forgiveness, shot out like quills.

The world moves with the velocity of thought, and change may not be resisted. It is God's chemistry.

A mischievous brain hatches a great many falsehoods, but the brood cannot generally be raised.

The soldier who marches up undaunted to the cannon's mouth may cover before the mouth of a scolding woman.

Those who are of kindred souls rarely wed together; far more rarely than those who are akin by blood.

Laziness will cover your garden with weeds. Hard drinking, if you keep it up, will cover your wife with weeds.

A respectable gentleman doesn't like to have a heavy charge leveled against him—especially if it is in a gun.

People don't live as long now as in the old time. The men of this age are very fast, and a fast man soon gets out of breath.

Reader, whether you are old or young, you have at this moment in your heart a wilder romance than was ever written.

The labors that a man performs with his hands are but his out-works. Look well to the strengthening of your inner works.

A Southern paper says that the Mississippi is fed by a hundred streams. It ought to be, for it has a hundred mouths.

"Do you know, sir, that, when I left home, my neighbors honored me with a musical escort?" "Oh, I understand—you were drummed out of town."

The Treasurer of the State of Ohio deposited with E. T. Carson, U. S. Depository in Cincinnati, \$380,000, the amount of the National direct tax assessed on Ohio.

The Eastern newspapers complain bitterly of idle officers loafing about the cities. In Philadelphia, particularly, the presence of the shoulder-strap gentry has become offensive.

The three-horned beetle is a very powerful little fellow. Though not weighing half an ounce, one has been known to move a weight of three pounds and a half—112 times its own weight.

Gen. Scott was asked his opinion of Mr. Lincoln. "Sir," said the old hero to the querist, addressing him with emphasis. "He is an honest, upright man, very conscientious, and tries to do right with all parties; that's what I believe, and I hope you are satisfied."

The Burnett House has been sold by A. B. Coleman to certain parties in Cincinnati for the sum of \$220,000. There are two mortgages on the land and building, one of \$125,000, is held by A. Belmont, of New York, and a second mortgage of \$75,000 is held by other parties.

As the Treasury Note bill passed the House, it authorizes the issue of \$50,000 in notes of denominations less than \$5. The feature allowing the printing of the notes to be done in the Treasury department is retained. Only Pendleton and White from Ohio voted against it.

It is a fact that should not be overlooked that the very man who is now most clamorous about "the Constitution as it is," and who professes to regard it as a holy thing, are those who were most rampant, eighteen months ago, for patching the sacred instrument with multitudinous amendments.

Returns from all but four counties in Illinois are in, and the result on the proposed new Constitution is: Negroes are denied the right to vote and prohibited from holding office by about nine-tenths of the whole vote; negroes prohibited from living in the State by about two-thirds; majority against the Constitution itself about 13,000.

It is pretty clearly established that the President's visit to Gen. Scott at West Point was for the purpose of having a consultation with him on military affairs. When the old General heard that the President was on his way to see him, he was much agitated, fearing that there was bad news of some sort. The New York papers reported that he expressed fear that McClellan was dead. The President told the General on meeting him that he had come "purposely to have a confab" with him, and they were alone together with military maps before them for five hours.

The Farm and Garden.

Talk about Bees.

It is a fact, not generally known, perhaps, but a fact nevertheless, that no more profitable investments of a few dollars of money can be made than in the purchase of bees, by any person having suitable grounds for keeping them. They require no outlay at the hands of their owner to feed them, but only a little attention occasionally, to see that they are protected properly from moths, which can be bestowed upon them at times when not otherwise employed. Early in the morning is the best time to attend to them; if the hives are properly constructed and set on the benches, they need but little of this.

To prove what we have asserted about the profits of such an investment, let us calculate a little. Assuming that the current value of a good thrifty stock of bees in this community at this time, is five dollars, exclusive for the cost of the hive, which may be worth from fifty cents to two dollars more, the plainer the better; and we can have at that rate twenty stocks for \$100. If we add to that sum \$25 more for hives, which would be \$125 each, we would have twenty swarms of bees at a cost of \$125. We will assume that these twenty stocks will yield every year, one new swarm each; some seasons they will yield two, but we will say one each. In addition to this, each stock will yield from 20 to 30 pounds of surplus honey which may be taken from them without endangering their lives. Fix the average yield of honey at 25 pounds to the stand, and we have, at 20 cents per pound, \$5.00 for each one. We are sure that these calculations are not too high, but that they are rather below the yields of many stocks of bees in the hands of moderately careful, successful bee raisers. Take them then, and foot up the results, and you have for \$125 laid out, \$2000 per year clear profits.

Now, permit us to ask, what investment can be made in any other kind of live stock that will, with so little additional expense and labor, yield so much; or even yield half so much?—*Clinton Republican.*

Diseases in Horses' Feet.

The disease among horses described by W. E. Spear of Ind., is "inflammation of the laminae," quite common in England and but little known in this country.

The "laminae" (leaves) are located at the top of, and connect with the outer portion of the hoof, being layers or leaves of gristle having an oily substance intervening. When this oily substance is inflamed the pain is so great the horse will not get up, when down. He will essay to rise until it comes to using the hind feet and there stop.

Put large socks around the legs at these parts, filled in with moist clay and salt, or any other poultice calculated to allay inflammation, changing as often as found necessary. Feed lightly, keep bowels open, and do not expose the horse to out door weather until he can get up without pain; nor for several weeks thereafter should he be allowed to stay out at nights if the weather is damp.

If he is down and will not rise raise him with the "tackle-block," keep him half suspended in the stable by means of stout canvas under the whole belly, attached to sticks at each side, and these sticks, a rope going up to the beam directly over the centre of the horses' back. So adjust this that the fore part of the horse is off the floor, or nearly so, if the fore part is affected, or the hind part, if the hind feet are affected.

The disease is simply an inflammation but at this season will be slow to cure, requiring care and possibly some trouble until June or even July next. My horse was so bad improved so slowly that most of the fair came off leaving the skin naked. He was usually idle and well fed when the disease begun.

THE WEST.—A correspondent writing from Henderson county, Illinois, May 19, 1892, says: "This country is full of produce. Corn is piled up everywhere in immense quantities. Within sight are the cribs of one farmer, which contain five thousand or more bushels. All the cribs of the county are full. Many acres of the last crop are yet un-gathered; the stalks yet stand as they grew, loaded with yellow ears. Corn lies piled in wagon-loads along the fences; and what Jersey men would call 'wood piles' are frequently corn-piles. As good corn as ever rejoiced the heart of the farmer is used continually for fuel. It sells for eight to ten cents per bushel, and has to be carted ten to twenty miles for that price. 'I do not think it is wrong to use it for fuel,' said one farmer, 'the stock in this county cannot possibly eat the grain.' The correspondent says they use as a substitute for coffee, the following: Mix two cups of corn meal with one of molasses, and brown well. Use as the genuine article.

TO MAKE AN EVERGREEN GROW COMPACT.—If you have an evergreen, or Norway spruce, balsam fir, American spruce, or any of the pines, and desire to make it grow more compact, just pinch out the bud from every leading branch, all around and over it. Repeat this process again next year, at this time, and your evergreen will continue thereafter to grow thickly.—*Indiana Farmer.*

\$1.50 Per Month.

Can be easily realized by an enterprising Agent in every town and country throughout the United States and Canada, selling the above articles, as there is no competition, and a liberal discount made to the trade.

Address A. H. DOWNER, Patentee and Sole Proprietor, N. B.—General and exclusive Agencies will be granted on the most liberal terms.

Family Medicines.

MOFFAT'S

Life Pills and Phenix Bitters.

These Medicines have now been before the public for the last THIRTY YEARS, and during that time have secured a reputation for their efficacy in curing all the diseases of the human system, and in restoring perfect health to persons suffering under various ailments. The following are among the distressing varieties of human diseases in which they are especially useful:

Vegetable Life Medicines

are well known to be infallible.

They are thoroughly cleansing the first and second stomach, and growing a pure, healthy bile, instead of the stale and acid kind; they cure Loss of Appetite, Heartburn, Headache, Indigestion, Ill-temper, Anxiety, Languor and Melancholy, which are the general symptoms of Dyspepsia, and as a natural consequence of the cure.

CONSTITUTION, by cleansing the whole length of the intestines with a solvent process, and without violence, all violent purges leave the bowels clogged in two days.

REVERSING of all kinds, by restoring the blood to a regular circulation, through the process of irrigation in such cases, and the thorough solution of all intestinal obstructions in others.

The LIFE MEDICINES have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by soothing and strengthening the kidneys and bladder; they operate most effectively on these important organs, and hence have ever been found a certain remedy for the very worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS AND INTESTINAL SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC Eruptions and Red Complexions, by their iterative effect upon the fluids that feed the skin, and the morbid state of which occasions so many eruptive complaints, scurvy, cloudy, and other disagreeable eruptions.

The use of these PILLS for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the complexion of the skin. COMMON COLDS AND INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietors of these Medicines were cured of Piles, of 25 years standing, by the use of the LIFE MEDICINES alone.

FEVER AND AGUE.—For this scourge of the Western Country these Medicines have found a safe, speedy and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent.—TRY THEM, BE SATISFIED, AND BE CURED.

RHEUMATISM AND LIVER COMPLAINTS, General Debility, Loss of Appetite, and Diseases of Females—the Medicines have been used with the most beneficial results in cases of this description. Erysipelas, and Scrofula in the worst forms, yield to the mild yet powerful action of these remarkable Medicines. Night Sweats, Nervous Debility, Nervous Complaints, of all kinds, Pimples of the Face, Pimples of the Throat, are speedily cured.

MEURICAL DISEASES.—Persons whose constitutions have been impaired by the injudicious use of Mercury, will find these Medicines a certain cure, as they never fail to eradicate from the system, all the effects of Mercury, inducing a new and the most powerful preparation of Sarsaparilla.

Prepared and sold by W. B. MOFFAT, 333 Broadway, New-York.

HOME TESTIMONY.

I hereby certify that I have been dealing in the Graefenberg Medicines for the past year, and can truly say that I have met with the desired approbation of the people in this section, particularly the pills and catholicon. They will readily perform all and more than is promised for them. I have sold about fifty bottles of the catholicon the past season, and I have the best results in every case. J. H. C. JOHNSON, Medical Agent.

Read what Dr. Bushnell says of the Graefenberg Medicines. Dr. B. is a physician of extensive practice, and one of the most successful in the county (Tremont) in which he resides.

"This certifies that I have used the Graefenberg pills and Marshall's Catholicon, sold here, by J. H. C. Johnson, my private practice, to my entire satisfaction. They are good medicines." Dr. G. W. BUSHNELL, Hartford, Trumbull Co., O., March 7, 1892.

West Bedford, Coshington Co., May 14, '87.

Mr. H. B. Ringling, Sir—I have been selling the Graefenberg pills and Marshall's Catholicon for the last two years, and have invariably found them to give great satisfaction; and the pills I have sold to a great many families as regulars in their tea and coffee, and with my trade they have become a staple article. Marshall's Catholicon is a medicine that has done a great amount of good in female diseases. One lady I sold it to told me that she had received more benefit from one bottle than she did from a long course of medical treatment by the most skillful physicians. Yours truly, JAMES H. RINGLING.

Health of American Women.

Female irregularities, weakness, uterine displacement, and all local uterine difficulties and constitutional troubles of women are entirely cured by the Graefenberg Marshall's Urinary Catholicon.

It is a pleasant, safe, and reliable medicine, and its use, I cannot recall ten married ladies born in this country and country, who are perfectly healthy.

In cases, however, where the Graefenberg Catholicon has been used, we must say that health has rapidly returned, and peace of mind and contentment, robustness, strong, vigorous, and healthy.

Mrs. Emerson, of Elmira, says: "Beautiful, indeed, is the confidence, trusting nature of woman, but how much does it need to be protected by a watchfulness that will lead her in time of disease to appeal to a medical adviser of scientific education, moral worth and purity of character."

All these may be secured by addressing the Graefenberg company.

I am a married medical clergyman. My heart has fairly ached to witness the feeble health of women as I have traveled my circuit preaching the gospel. I think God, however, that I have seen all these distressing ways to the Graefenberg Marshall's Urinary Catholicon, wherever it has been used. FETTER SHAW, formerly of Western Star, Medina Co., O.

CEPHALIC PILLS

CURE

SICK HEADACHE.

CEPHALIC PILLS

CURE

BILIOUS HEADACHE.

CEPHALIC PILLS

CURE

NERVOUS HEADACHE.

By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained. They act gently on the bowels—removing Constipation.

For Literary Men, Students, Delicate Females, and all persons of sedentary habits, they are valuable as a Laxative, improving the appetite, giving tone and vigor to the digestive organs, and restoring that natural elasticity and strength to the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the nervous system or a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety, without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

BEWARE OF COUNTERFEITS!

The genuine have five signatures of HENRY C. SPALDING on each box.

Sold by Druggists and all other Dealers in Medicines. A box will be sent by mail, prepaid, on receipt of the Price, 25 Cents.
